INTRODUCTION

In IPPS-A, Soldiers are referenced to as Members and this guide will familiarize you with the Self-Service Roles and Responsibilities, as well as commonly performed self-service functions within IPPS-A. Navigation and descriptions of the Self-Service homepage tiles and associated personnel actions will be provided. Each chapter details how to access the commonly used functions as well as additional training resources such as **User Productivity Kits (UPKs)** and the **IPPS-A User Manual**.

NOTE: This guide is not intended to replace UPK training or the IPPS-A User Manual. The IPPS-A User Manual is the primary tool to utilize once IPPS-A is implemented. 8th Army has published a great in-depth resource, linked below.

Click [here](#) to access the **R3 Demo Server (UPKs)** and the **IPPS-A User Manual**

Roles

Each category contains a number of **subcategories (SUBCATs)** that makeup the second organizational layer for roles and permissions. The default category is Member with the self-service functionality. The **Self-Service** role allows the Member to view personnel data and submit for changes or action requests. See *Chapter 3, Paragraph 3-5 IPPS-A Role Matrix* within the User Manual for detailed information.

Responsibilities

It is the Member's responsibility to review their personnel profile and submit changes in a timely manner. This can include actions pertaining to the Member, as well as any actions regarding certain **Personnel Action Requests (PARs)**, such as the **My Buddy PAR** function. The My Buddy PAR allows a Member to submit a PAR on behalf of another Member within their unit, such as recommending an award. Members can also follow the status of these recommendations on the **Personnel Action Summary** screen of My Buddy PARs area, within the **Personnel Action Requests** Tile. See *Chapter 15, Profile Management* within the User Manual for detailed information.

My Personnel Tempo (PERSTEMPO) Events

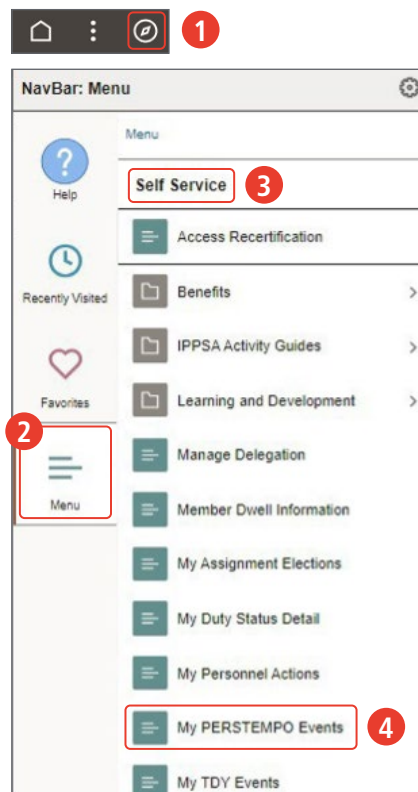

IPPS-A automates **Member Personnel Tempo (PERSTEMPO)** changes based on assignments, TDY, and Field Duty transactions entered into IPPS-A. HR Professionals can perform manual entries of historic PERSTEMPO events. The PERSTEMPO function communicates how often Members deploy and perform field and operational activities. Members may view their PERSTEMPO record from the NavBar navigation. My PERSTEMPO Events page is a tool for the Member to review their PERSTEMPO record. It only displays events in a status of Open, Projected, and Closed. The My PERSTEMPO Events page also displays the Member's 365 and 730 PERSTEMPO day counts as calculated by the 'As of' date. The My PERSTEMPO Events page includes the ability to search by Category, Purpose, Status, and a Date Range. It also allows the Member to download their PERSTEMPO Events. DD Form 214 and 214-1

IPPS-A's electronic DD Form 214, "Certificate of Uniformed Service," replaces the physical DD Form 214 for the Active Army component. Service Members who separate or transfer with at least 90 consecutive days of active duty receive a DD Form 214. This form serves as a Report of Separation and is typically used to verify military service for purposes such as benefits, employment, membership in veterans' organizations, and retirement. The DD Form 214-1, "Certificate of Uniformed Service, Reserve Component Addendum," is a newly introduced form that is issued to ARNG or USAR Member, in conjunction with the DD Form 214, when separated from Active Duty or transferred to the Individual Ready Reserve (IRR), Standby Reserve, or Retired Reserve. Signed DD Form 214 and DD Form 214-1 data is sent to the Defense Manpower Data Center (DMDC) and Interactive Personnel Electronic Records Management System (iPERMS).
