

Pay Personnel Mismatch (PPM) Report

BLUF

The PPM Report is a Commander and HR Professional function. The report is a Business Intelligence (BI) tool used to review and analyze discrepancies in Soldier pay between IPPS-A and the Defense Joint Military Pay System (DJMS). This report allows Leaders and HR Professionals to identify and address Soldier pay issues, while meeting Audit Requirements.

Previously, many Soldier pay issues were manually routed to the servicing Army Military Pay Office (AMPO) via pay inquiries from HR Professionals (S1/MPDs). Due to a recent change in Army structure and AMPO duties, more pay issues will be identified and, if possible, actioned at the HR Professional level.

Using this report, Commanders and HR Professionals may select applicable criterion and review their unit's Mismatch types. The report results in a by-name listing of Mismatch types and Missing Notes.

Audience: Commanders, HR Professionals
